Smart City in a smart region.

//sgsw
St. Gallen Region

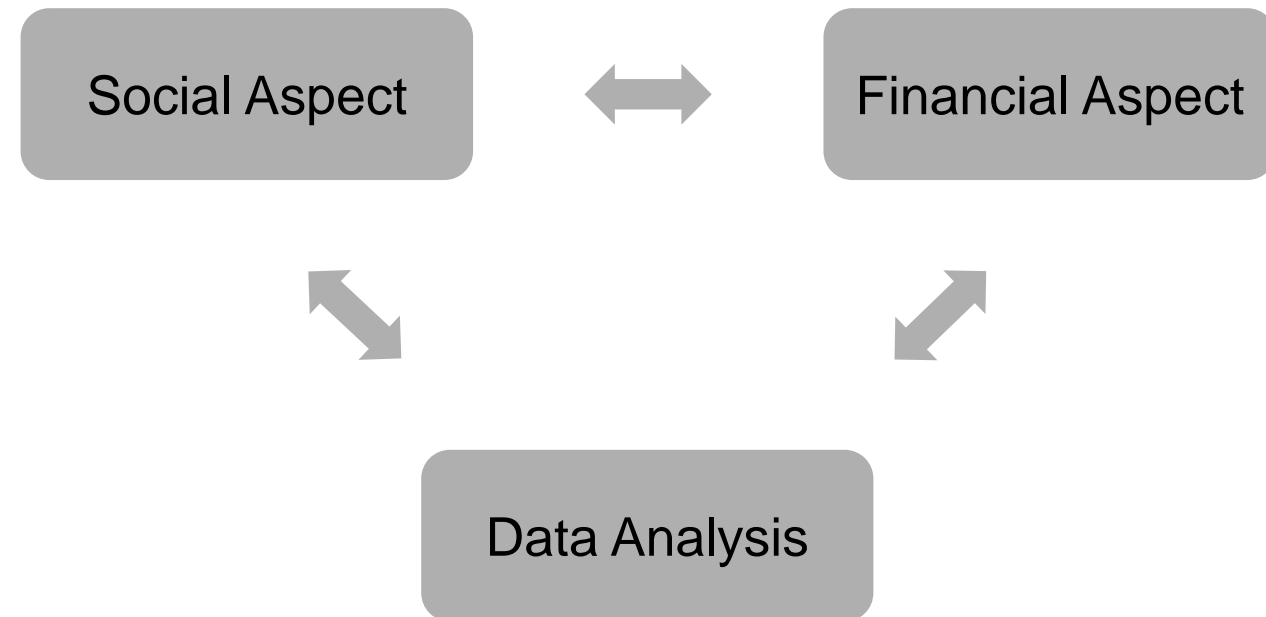

Challenge | Social assistance

- The goal of our social security system is to support the recipients based on their needs
- The social assistance acts as a last “**safety net**” and supporting them to overcome **difficult circumstances in life**.
- The **ultimate aim** is to help recipients getting out of the system and to foster **economical independence** in the future.
- Social assistance is a very important but costly service in the public sector. Therefore resources are always scarce and need to be invested smartly.

Challenge | Your Mission

Help our Social Services departement

- using the provided **data** and digital **tools and technology**
- in order to increase **efficiency and quality of the services** within the scarce resources
- **without jeopardizing the social aim** and importance of their services
